

KMLVISION

KML VISION

PROVIDING MODERN, HIGH-QUALITY, IMAGE-DATA MANAGEMENT AND AUTOMATED IMAGE-ANALYSIS APPLICATIONS.

We are an innovative IT company based in Graz, Austria and focus on image data management and automated image analysis applications.

We work with customers from Life Sciences, Healthcare and Industry for whom we are developing the IKOSA® platform. This platform consists of the IKOSA PORTAL, a multi-user system to store, manage and annotate big image data, and IKOSA PRISMA, which offers deep learning-based modules for automated image analysis. Existing modules can be used on-demand, or individual customer-specific modules are tailored with IKOSA PRIME.
