

ALPHAEDGE

AlphaEdge

THE MOST ADVANCED PLATFORM TO PREDICT THE POWER OUTPUT OF SOLAR AND WIND RENEWABLE ENERGY ASSETS

AlphaEdge is a SaaS Artificial Intelligence platform that leverages alternative data sources, like Satellite Earth Observation, together with on-soil data sources (IoT/IoE, Nowcast, ScaDa) to provide high-frequency forecasts to Energy / Asset / Infrastructure Management, Risk and Insurance stakeholders.

USP

1. Energy management companies
2. Renewable energy producers
3. Renewable Energy Communities (REC)
4. Transmission System Operators (TSOs)

Space connection
