## DORSI Dynamics

**We're creating a smart, portable wellness device that supports back health and helps relieve nonspecific back pain through natural, personalized care.**

DORSI Dynamics is developing an intelligent back care system that uses AI and biofeedback to guide gentle spinal decompression. The connected app tailors each session using real-time inputs like breathing and heart rate variability.

Our vision is to make back wellness simple, effective, and accessible—anytime, anywhere.

## Team

- Patrick Fuchshofer – CEO / Software Lead
- Michael Wild – CTO / Hardware
- Valentin Gritsch - CO-CTO / Mechatronics & IOT
- Arnulf Pascher – Scientific Lead / Orthopedics
- Dominik Novak – Mechatronics
