
Garnet

WE MAKE THE TOUGHEST DATA TAGS ON THE MARKET.

Garnet is a high-tech company developing hardware solutions for digitalizing industries (tags and sensors).

Our Garnet MV Space Tag solution is the toughest data tag on the market capable of storing large volumes of data while being fully operational in all kinds of harsh environments. We believe that data is the cornerstone for companies to stay competitive, and we offer a solution that helps them create a data-controlled system with easy and robust data management capabilities at the item level.
