### Key Features

- **Market Intelligence:** Provides verified insights and user-friendly frameworks on space market trends, technologies, applications, and use cases across various sectors to inform and build trust in the market.
- **Marketplace:** A dedicated catalogue allowing users to explore space-enabled solutions but presented tailored to their industry needs. Users can compare capabilities, pricing models, and integration possibilities into their business workflows. They can express interest and get connected to solution providers.

### USP

Spacegraph stands out as a singular platform that combines market intelligence with a marketplace, specifically tailored to give the stage to space-enabled solutions. Its analytics, insights and the creation of the catalogue are powered by advanced AI algorithms, facilitating informed decision-making with a great understanding of the opportunities.

### Target market

Spacegraph caters to both B2B and B2G segments:

**B2G:** Government organizations aiming to leverage space-enabled solutions for public services and infrastructure.

**B2B:** Companies that can enhance their operations with space-enabled solutions.

### Space connection

By focusing on intelligence on the space market and a marketplace for space-enabled solutions, Spacegraph facilitates the adoption of “Space” across various industries, promoting efficiency and innovation.
