Sophia

OUR VISION IS THAT EVERYONE IS INSURED THE RIGHT WAY WITHOUT HAVING TO WORRY ABOUT IT. THAT BECOMES POSSIBLE WITH SOPHIA: YOUR PERSONAL, DIGITAL INSURANCE BROKER.

Insurance is with us from birth. At first we don't even notice but once we have our own apartment, car or dog there's no escape. And that's when we realise: Insurances are complex, non-transparent and awful to deal with - we long for a need-centric solution: Sophia is an insurance app that insures customers in the best possible way to suit their individual life situation. It is the first autonomous online insurance advice and optimization platform out there. Sophia manages your insurance contracts, reminds you when you can optimise them, analyses your insurance needs and gives you an overview of your insurance situation and that of your loved ones.
