

TELMED

TelMed

RADIOLOGY WITHOUT BORDERS, PLUG-AND-PLAY DIAGNOSTICS, ANYTIME, ANYWHERE, IN ANY LANGUAGE

TelMed is a cross-border teleradiology platform that connects healthcare facilities in underserved regions with a global network of certified radiologists. Our plug-and-play solution enables hospitals and clinics to access fast, reliable, and affordable diagnostics without language or regulatory barriers.

We deliver high-quality interpretations in record time through our cloud-based PACS, AI-assisted workflows, and multilingual reporting. TelMed supports healthcare systems facing radiologist shortages, improves patient outcomes, and ensures compliance with international medical standards.
